About Me

Hey there! I'm a student at Karachi University, rocking my Bachelors in Software Engineering. I'm all about those websites – made cool stuff like a Netflix clone, Amazon lookalike, a news app, and even clones of Messenger and Insta. My GPA? A sweet 3.7! Check out my GitHub for all the techy fun. (Chuck672991) 🚀

Professional Experience

2023– Present

1. Web Development Expertise: Successfully crafted fully functional websites, including an Amazon clone and a news app, showcasing my proficiency in web development.
 2. API Fetching Skills: Experienced in fetching data from APIs, enhancing the dynamic nature of websites and ensuring up-to-date information.
 3. Firebase Backend Handling: Proficient in managing backend operations using Firebase, ensuring seamless functionality and data management.
 4. Responsive Web Design: Skilled in creating responsive websites, ensuring optimal user experience across various devices and screen sizes.
 5. JavaScript Functionality: Implemented dynamic functionality using JavaScript, adding interactive elements to websites and enhancing user engagement.
- These hands-on experiences reflect my commitment to creating robust, user-friendly websites with a keen focus on functionality and design.
